Time to rest

N^o1

N^o1 Houseboat brings you completely new ways of living and recreation on water! It may be permanently docked at any port, or you can navigate anywhere according to your wishes. It lets you see everything from a new perspective from your own deck on N^o1!

Generous terrace

The upper deck is exactly what an owner of N°1 really appreciates. It provides peace, comfort, grace and above all generous space. Spend an evening with friends or just enjoy the sun in the summer. That's what the upper deck of N°1 offers. The stairs and entrance are easily accessible, and serving drinks or food on the terrace is easy.

Elegant office

Do you need space in the city center where you can get as close to the interests and needs of your clients as possible? Use Nº1 as an office. This provides a unique space where clients will appreciate your creativity. Meetings right on the water will gain another dimension. WiFi and all equipment necessary for your work are included onboard.

Impressive views

The interior is designed as a modern and very comfortable and efficient living space where you will be able to relax and chat with friends or it will be the background for your activities on the water.

Island of fun

N°1 is perfect for trips on the water. It may very well serve as a base for water sports as well as longer journeys. It provides maximum comfort and convenience anywhere in nature. And eating after sports or a boating expedition is twice as tasty! Lunch is ready and the smell from the upper terrace is spreading across the surface.

Evening atmosphere

No1 is equipped with modern lighting inside and out. Energy saving LED lights create a pleasant atmosphere and stay onboard is a unique experience: life slows down and you can have the time for a cocktail or glass of wine.

Luxury interior

The main living space of N°1 is linked up with the front covered deck. Living space is extended by another 11 m² when the weather allows. In cold weather, however, security glazing, aluminum frames and the whole design ensures excellent thermal comfort. N°1 can be optionally ordered with hot-water underfloor heating.

Modern kitchen

Comfort on board requires good food and drink, which can be prepared in the fully equipped modern kitchen, which includes an induction cooker, a fridge, a small bar and a lot of storage space for both food and cooking utensils, dishes and silverware.

Cozy bedroom

N°1 is intended for recreational and permanent housing and therefore there's a separate bedroom with four fitted wardrobes and additional storage space under the comfortable double bed. The bedroom is separated from the main living space by a sliding door and has a separate entrance to the rear deck.

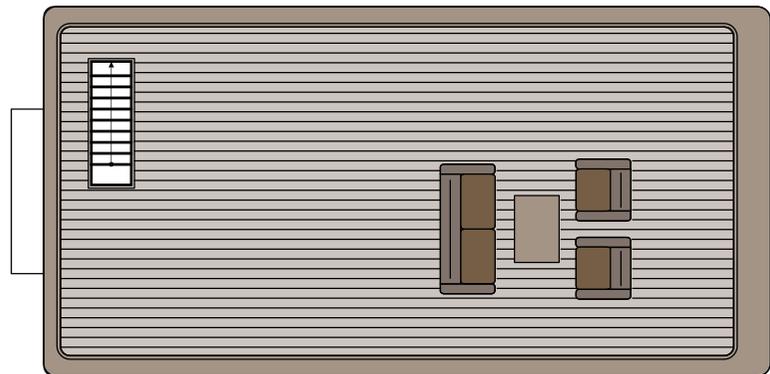

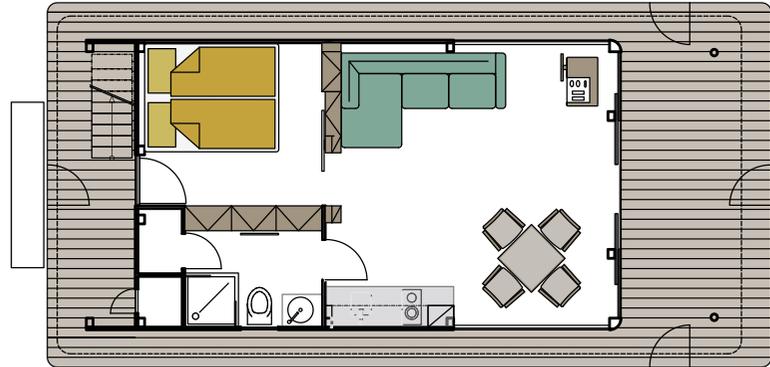

Spacious bathroom

N°1 provides comfort in all directions! A large supply of drinking water and independent heating and water quality equipment are provided to the owner and his guests with facilities comparable with modern housing.
